

[illegible][illegible][illegible][illegible]

The architectural site plan illustrates a proposed parking facility and its integration with existing urban infrastructure. Key features include:

- Parking Areas:** Designated zones are labeled with vehicle counts and dimensions, such as "6 PM" (6 parking spaces), "12 PM", "13 PM", and "4 PM". Specific dimensions like 3000, 2500, 5000, and 6000 mm are provided for various sections.
- Building Footprints:** Existing structures are shown in grey, including one labeled "Behr Bircher Cellpar stávající h..." (existing hall).
- Infrastructure and Access:** The plan shows connections to roads "PEI225" and "PE-OI40", along with pedestrian crossings ("Základní ulice") and tram tracks ("Tramvajová dráha").
- Proposed Fencing:** A new fence system is indicated by red dashed lines, described as "nové oplocení v. 1800 mm ocelové sloupky plotové drátěné panely" (new fencing with 1800 mm steel posts and wire mesh panels).
- Other Details:** The plan includes elevation points (e.g., 78.0, 78.5, 242), area labels like "DÍL 'A'", and project identifiers "P.Č. 924/11" and "PEI40".
